First Version
I was in a boarding school, I'll put the boarding school in there, Clifton hall, but like Hogwarts and I've got that. And then they some old boys, older boys said let's play rugby. And then they looked and they needed extra and they saw us younger ones and they invited us. And so I've got that. Um, we weren't allowed to play on our own full contact and it was quite rough, I was a bit scared. So can you see how I've got extra stuff that I've added to put in, but I was amazed.

Second Version
Okay, so we've got that. So I've done that. And then you take it different bits of your story and start fitting them in to the different parts for the start, the event and then the end. And so that if this looks a little bit empty, you add extra. And so off you go and start adding, transferring this information onto this map. It might seem a bit strange, like why am I doing the same map? But you'll find as you move it over and you'll change the position of things, you'll add more information and it will be a little bit different and a little bit better. Go ahead and do that now. Spend at least five minutes transferring all of this over. Maybe even 10 minutes transferring this all over. I'm going to do the rest of my mouth.
